Career Objective

Aspiring **Data Analyst** with strong foundations in **Python, SQL, and Data Visualization**, currently pursuing a **Bachelor of Computer Applications (BCA)**. Experienced in data analytics, full stack web development, and AI/ML through internships, hackathons, and academic projects. Seeking to join the **Google Data Analytics Apprenticeship 2026** to apply analytical skills, uncover insights from data, and grow into an industry-ready data professional.

Qualifications Summary

Minimum Qualifications

- Pursuing **Bachelor's degree in Computer Applications (BCA, 2023–2026)**.
- < 1 year of professional experience in **data analytics** through internships and projects.
- Experienced with **Google Workspace tools (Docs, Sheets, Gmail, Chrome)**.
- Fluent in **English** with strong ability to learn via documentation and training.

Preferred Qualifications

- Understanding of **SQL programming** and relational databases.
 - Knowledge and interest in **data analysis, numbers, and pattern recognition**.
 - Ability to **work independently and in teams**, developed through hackathons and internships.
 - Strong **problem-solving and critical thinking** skills.
 - Adaptability to **ambiguous tasks and competing priorities**.
 - Excellent communication, organizational skills, and leadership experience.
-

Technical Skills

- **Programming Languages:** Python, Java, C++, JavaScript, C
 - **Data Analytics Tools:** Python (Pandas, NumPy, Matplotlib), SQL, Excel, Google Sheets
 - **Databases:** MySQL, SQLite, MongoDB, Firebase
 - **Visualization:** Matplotlib, Google Data Studio, Excel Charts
 - **Cloud & DevOps:** Google Cloud Platform (Vertex AI, BigQuery), GitHub Actions, GitLab
 - **Other Skills:** Data Cleaning, Data Storytelling, Statistical Analysis, Problem Solving
-

Education

Bachelor of Computer Applications (BCA)

Seshadripuram Degree College, University of Mysore
2023 – 2026

Professional Experience & Internships

AI & Data Analytics Intern – Shell India (AICTE / Edunet Foundation)

Jun – Jul 2025

- Applied **data analytics techniques** on real-world business cases.
- Gained exposure to sustainability-focused digital solutions.

Web Development Intern – Nexus Logic Technologies

Mar – May 2025

- Developed **data-driven web applications** using HTML, CSS, JavaScript, and MySQL.
- Improved efficiency in managing client project data.

Cybersecurity Intern – IBM SkillsBuild (AICTE / Edunet Foundation)

Jun 2025

- Analyzed data logs and security events to detect anomalies.
- Applied structured problem-solving in cybersecurity scenarios.

Full Stack Intern – Micro IT

Apr 2025

- Worked on backend database integration and real-time analytics features.
-

Key Projects

- **Library Management System (Flask + MySQL):** Created reports and analytics from user & book data.
 - **SmartRecycle (Infosys Hackathon):** Designed a reward system with **data insights** from waste pickup requests.
 - **Criminal Identification System (Python + OpenCV):** Real-time anomaly detection with live video data.
 - **ElementMix (AI Chemical Reaction Simulator):** Processed user input and generated structured AI-based predictions.
 - **Chrome Productivity Extension:** Captured and stored user data for productivity tracking.
-

Certifications

- Google Cloud: Build Multi-Modal GenAI Applications (Vertex AI, Gemini API)
 - Deloitte: **Data Analytics Job Simulation** – applied real-world datasets
 - Infosys Springboard: Introduction to Data Science, OpenAI GPT-3 for Developers
 - Microsoft: Foundations of AI
 - UiPath: RPA Developer Training
 - Self-Learned: Cybersecurity with Kali Linux
-

Hackathons & Achievements

- Infosys Global Hackathon (2025) – Delivered full-stack solution with **data insights**.
 - AITHON – Applied AI tools for web/image/data projects.
 - Hindustan College Hackathon (2024) – Built a **health analytics website**.
 - 🏆 1st Prize – Website Development Competition (Degree Level)
 - 🥈 2nd Prize – Website Development Competition (PU Level)
 - Open Source Contributor – Social Summer of Code (SSOC)
-

Leadership Roles & Strengths

- Education Vice-Captain (PU College), Class Representative (Degree College).
- Strong **analytical mindset** with problem-solving skills.
- Excellent **communication, teamwork, and organizational abilities**.
- Passionate about **data analytics, technology, and continuous learning**.
